Seller's Responsibility:

1. The Seller guarantees the puppy is in good health, has had their first round of immunizations, has been dewormed, and spayed or neutered at the time the Buyer takes possession. The Buyer has **three business days** to take the puppy to a Veterinarian for an examination. If the puppy is found to be in poor health the Buyer has the option of returning the puppy to the Seller, at Buyer's cost, for a full refund, or keeping the puppy, and the Seller will reimburse for all veterinary costs, up to the purchase price of the puppy, related to treatment of any pre-existing condition. The Buyer will provide a written statement from a licensed Veterinarian clearly stating defect or illness. If the puppy is not taken to a licensed Veterinarian within the three business days, the Health Warranty is void.
2. The Seller provides this warranty for two years after the date of sale against any debilitating congenital defects. In the event the puppy exhibits symptoms of a suspected debilitating congenital defect, the Buyer must supply any requested veterinary records to the Seller within seven days of informing the Seller of the defect. The Seller has the right to require a second opinion from a Veterinarian of the Seller's choice at the Seller's expense. If the puppy is euthanized or in any way disposed of, without a second opinion from the Seller's Veterinarian, the Buyer waives all rights to a replacement puppy or any financial payment as compensation.
3. This warranty does not include viral illnesses, infections, improper bites, hernias, hypoglycemia, Guardia or Coccidiosis. It also does not include any illness due to the ingestion of foreign objects, food, chemicals or physical injury.

4. If it is determined the puppy does have a genetic disorder that is identified within two years of purchase, the Buyer has the option of either a replacement puppy from the next available litter or reimbursement, up to the purchase price of the puppy, of all veterinary expenses related to the illness. Your puppy need not be returned to us. Shipping fees will not be refunded, and if it becomes necessary to ship a replacement puppy, those fees are to be paid by the Buyer.
5. If the puppy should die from a suspected congenital defect within the 24 months of its date of purchase, an autopsy must be performed at the Buyer's expense by a licensed Veterinarian acceptable to the Seller's own Veterinarian. If the autopsy shows a congenital defect as the reason for the death, the Seller will provide another puppy of equal value to the Buyer. A written statement from the Veterinarian must be provided. This warranty is void in the event of an indeterminable or inconclusive diagnosis.
6. Seller agrees to provide a pedigree and number of the microchip that has been implanted in the puppy.
7. No warranties or guarantees, expressed or implied, are made under this contract except as stated.
8. This warranty is non-transferable.
